

Chivalry

Freddie Jackson

Well, alright!
Whoo!
Sing

Never been a lover
Who could step to it
No

We were takin' care of business
Till you found another lover
Girl, he put you down
Now your world is spinnin' round
I was brokenhearted
But I held on to the love
I had inside for you
That's what got me through

Like a knight in shining armor
Your heart I will defend
I'll protect your honor
Like a warrior to the end

'Cause chivalry is not really dead
And if anyone should hurt you
I'll be there
'Cause chivalry is not really dead
No matter what another guy might do
I'll still be there for you
Always and forever, ooh, yeah

Woman, you may not believe it
But the hardest thing a man can do
Is swallow pride
It burns deep inside
Now I'm over that
Step by step each day
I'm stronger and I'm comin' back
To take what's mine again

Like a knight in shining armor
Your heart I will defend
I'll protect your honor
Like a warrior to the end

'Cause chivalry is not really dead
And if anyone should hurt you
I'll be right there
'Cause chivalry is not really dead
No matter what another guy might do
I'll still be there for you

Always and forever
I'll be there for you
And my love will shine through
As long as there's a breath of life in me
I'm never gonna let you down
I'll be around

Never been a lover
Who could step to it

Like a knight in shining armor
Your heart I will defend
I'll protect your honor
Like a warrior to the end

Girl, I'll protect your honor
Like a knight in shining armor
Like a warrior to the end
Your heart I will defend

Girl, I'll protect your honor
Like a knight in shining armor
Like a warrior to the end
Your heart I will defend

Chivalry is not really dead
(Ooh, yeah, oh, yeah)
And if anyone should hurt you
I'll be there
'Cause chivalry is not really dead
No matter what another guy might do
I'll still be there for you

Never been a lover
Who could step to it
Baby, he will never cherish you like me
I'll be right there...
