

# Incognito

Freddie Jackson

To... the other guy the perfect ten  
Fun is what I've seen since I don't know when  
You should be on the cover of Essence magazine  
You could be on stage like a super model beauty queen  
Yes you could  
You could like a star  
This is what you truly are  
Believe me baby  
You can do so much better

[Chorus:]

You know how to be somebody  
You got me now  
Baby baby  
If you only need  
You'll never be incognito  
You got me

Did you like you were a pearl  
... only special girl  
I'll stay worthy and material  
You should know that it ain't that serious about you baby

He is acting like you don't exist  
I'm looking number one upon my lips  
Believe me you can do much better

[Chorus]

I'll do anything to get eith you  
Just call me I'll be right there  
Girl you know that he is not right for you  
You're right for me

[Chorus]

I will love you more than my bodies  
Leave all the girls for you honey  
Turn my life around if you want me  
Quit the... down if you want me  
Always take you there when I hit it  
Ain't a thing that you want I can get it
