

## Main Course

Freddie Jackson

I can't believe  
What is happening to me  
In my wildest dreams  
Never thought this could be real  
How you changed my life  
When you came alone  
And make me strong  
Now I wanna save my world with you  
[Chorus:]  
For you I will  
I promise forever  
For you I will  
And it will get better  
For you I will  
I will give you a lifetime  
A love straight from my heart  
For you I will  
You can't be sure  
As we go to each storm  
We will... our love will be forever  
Cause you change my world  
Since you came along  
From now on  
Your smile  
Want to share my life with you  
[Chorus]  
As the years go by will find  
True happiness collides down deep inside  
Will never doubt  
[Chorus]
