

## Rumors

Freddie Jackson

Don't mean no disrespect  
I now you got to have your friend  
But when you come around him  
It starts all over again  
Talking about...  
They're talking about...  
Talking about they don't wanna say but they look like me  
And they put it on your head don't believe

[Chorus:]

They just won't admit  
The kind of life you live happy now  
Looking for a way to come between us anyhow  
They're always in your ear they don't know what they're talking  
about  
Spreading rumors

They said I got a history  
Of love might leave you fast  
They tell you don't trust me  
Cause...  
And they're given...  
If you don't know them... I will

[Chorus]

They don't appreciate  
How deep the bond between us is  
All they do is trying to... on you  
They don't wanna see you doing baby  
Keep a man that does the things I do for you

[Chorus]
