

Time For Love Tonight

Freddie Jackson

Would you come a little closer
It's time

Time for love tonight
Ooh-ooh...
Time for love tonight
Yeah, yeah, yeah
Ooh, ah...
Listen, girl

Say the word, I'll be your valentine
When you're in need, call on me anytime
If you're down on your luck, I'll provide
All I want to do is be there for you

Honey, you're like a diamond
And I love to watch you shine
I think you should know
What's going on in my mind

Baby, it's time for love tonight
Just hold me close and dim the lights
Baby, it's time for love tonight
Just like I do, honey, you need love too
Baby, it's time
(It's time for love)

Come on over
We can have a party for two
I want to know how it feels
To slow dance with you
Dusk to dawn, on and on
The whole night through
We'll make history
The best that's ever been

This could be our moment
Let's not hesitate
(Let's get busy)
We better get busy
There's no reason to wait

Baby, it's time for love tonight
So just hold me close and dim the lights
Baby, it's time for love tonight
Just like I do, honey, you need love too
Time for love tonight, yeah
Let me hold you in my arms and dim the lights
Isn't it time we got it right
Just like I do, honey, you need love too

If you need it, baby, say it
Oh, oh...
Oh, oh, oh, oh, oh, oh...

This could be our moment
Let's not hesitate

(Let's get busy)
We better get busy
There's no reason, reason to wait

(Time for love)
Hey, oh...
Just hold me close and dim the lights
Isn't it, don't you think it, yeah
(Time for love tonight)
Just like I do, honey, you need my loving too

(It's time for love)
Hey, don't you think it's time
(More love, more love)
More, more, more, more love
(It's time for love)
Hey, yeah
Just like I do
I know you need it, you need it
You need it, you need it too, hey...
