

Trouble

Freddie Jackson

Oh, oh, ah...

Trouble

We've made love all around the world
On warm Jamaican shores
From down Key Largo to the Spanish coast
Still I wanna do it more
You ask me how could one man
Possess so much desire
The hunger deep within your eyes
Makes me wanna feel the fire

Slip on your negligee, beneath the sheets
I'll satisfy the lover in you
You say I've done it all
How much more could any one man do?

If you think I been rockin' it right lately
You're in trouble tonight
Gonna whip it on you
Like you want me to do
If I was whippin' it strong yesterday
You're in trouble
You know that I'll keep doin' ya, sugar
Until I get the very last drop
Trouble, oh, girl, oh...

Slip into my jacuzzi
Where the waters are so warm
And even if there's a hurricane
I'll protect you from the storm
Let's start at the bottom
And slowly tear it up
'Cause I don't wanna miss
A drip drop of your love
So melt into my cup

Slip on your negligee, beneath the sheets
I'll satisfy the lover in you
You say I've turned you out
How much more could any one man do?

If you think I been rockin' it right lately
Then you're in trouble tonight
I can't wait to get you home
Vice the lights, cut the phone
If I was whippin' it strong yesterday
Then you're in trouble
You know

Lately at the strangest times
I'm restless every night
Craving just to hold your body tight
(You give me the reasons)
The reasons that I need
To love your tender body down
'Cause I'm all turned on

By your pure sex appeal
(Trouble)

(Trouble tonight)
Oh, baby
(Might as well face it)
We could fly down to Jamaica
Make passionate love on the beach
(It looks like)
Under the moon
(Trouble tonight)
Or way up high in the mountains
Under a waterfall
(Might as well face it)
And I'm not gonna miss
A drip drop of your love
Gonna whip it on you
Like a man's supposed to do

If I was rockin' it right late
Then you're in trouble tonight
I'll be rockin' you, baby
You know that
I'll keep doin' you, sugar
Until I get down
To the very last drip drop
Trouble

(If I been rockin' it)
(You're in trouble tonight)
You're in trouble, girl, you're in
(Trouble tonight)
Face it, face it
(You're in trouble)
Sing it, ladies, sing it, ladies
(It looks like)
Sing it, baby, baby, baby, baby

It looks like a whole lotta trouble
Baby, looks like a whole lotta trouble
You might as well face it, tonight
Baby, baby, you're in trouble, baby
Trouble
You might as well face it
Might as well face it
Baby, let me hear you say, ooh...
