

What's On Your Mind

Freddie Jackson

Oh baby, baby, oh girl
Here we are just you and I alone at last
Please tell me what you want that's all I ask
I spent too many sleepless nights burning for you
I need to know girl are you thirsty for me too?
So won't you talk to me and... the thing you need
I'm asking baby, please
What's on your mind, it's getting late and love won't wait up
... do you want me like I want you girl?
What's on your mind let it show then you know it's going
Down this time, cause love's on the line, show me a sign, what'
s on your mind?

Girl there is no sense in wished all this time
Leaving seats of passion hanging on the vain
This anything you want it's here for you
But I can't take you there until you ask me to
So woman talk to me, am I the thing you need?
I'm begging baby, please
What's on your mind, it's getting late and love won't wait anot
her night
Do you want me like I want you girl?
What's on your mind, let it show then you know it's going
Down this time, cause love's on the line, show me a sign, what'
s on your mind?
So please don't close the door, this is what we were waiting fo
r
Can't hold on much more, girl
Girl this time don't be shy, cause my love won't be denied

What's on your mind?
It's getting late and love won't wait another night
Do you want me like I want you baby?
What's on your mind, let it show and then you know it's going
Down this time, cause love's on the line, show me a sign,

Girl let it show, I wanna know, it's getting late, talking away
Spare me some time, show me a sign, don't let me wait (2x)
What's on your mind? Oh, tell me, whisper softly in my ear
I wanna know, what's on your mind? O, girl, I wanna know.
