

Danger Zone

Freddie King

Sad and lonely all the time
That's because I've got a worried mind
You see the world is in an uproar
Danger zone is everywhere, everywhere

Read your paper and you'll see
Just exactly what's been worryin' me
You'll see the world is in an uproar
Danger zone is everywhere

My love for the world is like always
For the world is a part of me
That's why I'm so afraid
Of the progress that's being made
Toward eternity

Read your paper and you'll see
Just exactly what's been worryin' me
You'll see the world is in an uproar
Danger zone is everywhere

My love for the world is like always
For the world is a part of me
That's why I'm so afraid
Of the progress that's being made
Toward eternity

Every morning, every night
Find me hope that everything's alright
You see the world is in an uproar
Danger zone is everywhere
You see the world is in an uproar
Danger zone is everywhere
