Play It Cool

Freddie King

Some people can love one at time
Say every woman bears a man
My baby said she wouldn't put here forever
So she gonna love as many as she can

But what can I do now?
I just play it cool
I just play it cool, people
'Cause that's the only thing I know to do

Now, women look good these days
They can look sexy in so many ways
They can wear those dresses up above their knees
And that will make a man take his life away

But what can I do, people?
I just play it cool
Yeah, I just play it cool now
'Cause that's the only thing I know to do

People may be wrong sometime
They can't be wrong all the time
Like they say, I can't have nine lives
But my baby says she can love that many times

But what can I do now?
I just play it cool
I just play it cool
'Cause that's the only thing I know to do
