

# Whiskey River

Freddy Fender

Whiskey River, take my mind  
Don't let a memory talk to me  
Whiskey River, don't run dry  
You're all I got, take care of me

I'm drowning in a Whiskey River  
Bathing my memory's mind in the wetness of it's soul  
Feeling the amber current flowing from my mind  
To warm an empty heart you left so cold

Whiskey River, take my mind  
Don't let a memory talk to me  
Whiskey River, don't run dry  
You're all I got, take care of me

I'm drowning in a Whiskey River  
Bathing my memory's mind in the wetness of it's soul  
Feeling the amber current flowing from my mind  
To warm an empty heart you left so cold
