

# Almost Gone

Fredo Bang

(DJ Kale on the beat, catching sales on your street, nigga)

I just put my fuckin' wrist to work  
Got that blender on full speed  
Lost my soul to these people's streets  
Keep it cocked 'cause they envy me  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone

Niggas grinded for cars, I grind for long nights  
Fuck spending money on bitches, I save for grandson  
Man, save a SIG, take that occasion and pace 'em  
That boy said I'm a flop, told him keep waitin'  
I'm in the kitchen right now puttin' a two on it  
My shooter bendin' your block, puttin' that blues on it  
I got that white girl steady doin' gymnastics  
Holler baby boomerang, they comin' back, yeah  
Them Percocets eat my body up on the daily, bae  
I crush that Addy in lean to take the pain away  
Assist the pack to my youngin, he make a fadeaway  
Then we balling like Spalding, Penny Hardaway

I just put my fuckin' wrist to work  
Got that blender on full speed  
Lost my soul to these people's streets  
Keep it cocked 'cause they envy me  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone

I just put my fuckin' wrist to work, yeah, yeah  
Shake the dope, I'ma make it twerk, yeah, yeah  
Fuck your bitch, catch a play and pop a Perc'  
My pockets got them blue strips, Papa Smurf  
I get that bag so the people on me daily  
But I ain't trippin' 'cause my lawyer Ron Haley  
I'm like a fiend, if I don't get it, I go crazy  
The people knockin' on my door, hope they don't raid me

I just put my fuckin' wrist to work  
Got that blender on full speed  
Lost my soul to these people's streets  
Keep it cocked 'cause they envy me  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone  
More money, more money, more money, all I want  
Them problems, them problems, them problems, almost gone
