

Broken

Fredo Bang

Ay ay ay ay ay that probably Tago

Embrace your flaws ignore your threats
I'll eat your soul still give ya ass a smile
Give me your pain I'll wear the scars
Just don't put your love on pause
Fell in your DM cause I saw more then the blogs
Fell in love soon as I slid against your walls
You blocked my number baby tell me what's the code
Treated you just like a queen your baby daddy treat you just like a dog
I seen the part of you that people couldn't
You tell me catch a flight right now you know I'm coming to you
Yeah steppin' out in public we in Houston thuggin'
You said you'd love me and still be here if the shit got ugly

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice

Gave your ass my love and I can't take it back
You treat me like a stranger had to deal with that
That weight up on your shoulders put it on my back
I raise the smoke just fuckin' with you I brought extra straps
Streets believe this ain't make believe
I ate your pussy tryna suck ya clean
Let me back in give me the fuckin' keys
I left it in tryna make a baby me

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice

Please don't leave me broken
Don't leave me open
You know I love you
Need you to notice
