

Drop It Low

Fredo Bang

Baby tell me what your name is
Ooh I like the way you move to these songs
Tell me where you from love
Cuz I ain't never seen that ass in a long time

You don't go out much
Cuz your job always holding you down
But it keeps the bills paid
So you always clock in on time

Even got your heart broken yea
Way too many times to count
You try to stay loyal
But your nigga always stressing you out

When you should be mine in the first place
Fine and you curvy
I be dickin' you to the night till it's early
Mm look in my eyes you got me thirsty
Take out that lace I like them nappy and curly

Mmm mmm mmm throw it back I can't hurt me
Ooh I love the way you work it
Yeah I give you time if you're worth it
All I need you to do right now is drop it low

Drop it low
Won't you drop it low?
Won't you drop it low?

Drop it low
Touch your toes
Love but fuck me like a hoe
Drop it low
Keep it on the low
I got a night at the house but I'm about to let it go
He told me drop it low
Do I love you baby no
You see me with a night and that nigga just for show
My last nigga played had to storm it like a hoe
From the AM to the PM we gone keep them on the low

Keep them hoes off my meat so we could never let them go
Tell me how you like it nigga want it fast or want it slow
He hollering out my government so I had to let him no
Treat him in this bitch I had to let them know

Drop it low
Baby, drop it low
Won't you drop it low?
Baby, drop it low
