

## Federal Raid

Fredo Bang

I can't go to sleep at night, they want to take me out  
They might come tonight  
Baby hold me close and I won't let you go  
Is you down to ride gotta let me know  
Feds hit the spot, I'm confused why they walked in  
Some people want me dead or in a cell I guess they talkin'  
Said that they love me but hit my stash with the cash in  
Feel like they left me soon as the police locked my hands in  
Tell me how to trust when I can't trust the ones I started with  
How the fuck I'm pose to love  
When all the love I give I never get  
Fighting my depression my mind chewed up like some double mint  
My cousin say he love me I bet it change  
If ain't no money sent  
Money ain't change me none it changed the way my people view my worth  
How you cross a nigga that held you down and wanna see you first  
Wanna have a kid but I can't find a bitch that'll make it work  
I turn my back you cut my throat this life I live I expect the worse

Give me your hand, give me your hand when I'm lonely  
You be my light when it's dark and it's stormy  
Give me your hand, give me your hand when I'm lonely  
Give me something really everything around me looking foney  
Give me your hand, give me your hand when I'm lonely  
You be my light when it's dark and it's stormy  
Give me your hand, give me your hand when I'm lonely  
I give em my love but they just can't love me

Tell me can you make it work  
Not a 9 to 5  
I'm talking about can you put my feeling first  
Looked in yo eyes  
I see potential I can see the worth  
They point the finger want me gone, they trying to pin that dirt  
My feelings hurt  
I'm trying to be the right man for the right people  
But these Demons on me won't let me sleep at night  
Won't lock me up or take my life  
That's fine by them  
I been broken down to pieces  
Where the love I really need it  
My heart been broken I can't treat it

Give me your hand, give me your hand when I'm lonely  
You be my light when it's dark and it's stormy  
Give me your hand, give me your hand when I'm lonely  
Give me something really everything around me looking phony  
Give me your hand, give me your hand when I'm lonely  
You be my light when it's dark and it's stormy  
Give me your hand, give me your hand when I'm lonely  
I give em my love but they just can't love me
