

Monsters

Fredo Bang

Since a baby I was scared missin my momma
Call me Godzilla wont let em take me under
16 I was grown spittin out them hundreds
In the streets I found it wasn't no real monstas
It was my dogs the monstas the law
They wanna see me in the wall
Them monstas tryna take me out

Use to have trust don't know what happened to it
Gave the world the real it still don't matter to them
Left a couple in the passed but they pushed me to it
Caught a couple charges but I had to do it
How I'm a bad influence when I put some hope into it
I was rumbling in that jungle had to play my part
I was workin a 9-5 had to go push that cart
But now I made it out the struggle gotta go thank the lord

Since a baby I was scared missin my momma
Call me Godzilla wont let em take me under
16 I was grown spittin out them hundreds
In the streets I found it wasn't no real monstas
It was my dogs the monstas the law
They wanna see me in the wall Them monstas tryna take me out

Remember sellin my momma pills and she aint had a clue
Remember 2012 we had to bring that rod to school
Remember Jesse Trey and Lester stuck to me like glue
And I broke down in tears Kortlen on the news
My heart black like a crow and I can't make it redder
I could talk to Gee right now it still wont make it better
I broke a lot of people hearts I wish that I could heal em
A lot people rubbed me wrong and I cannot forgive them

Since a baby I was scared missin my momma
Call me Godzilla wont let em take me under
16 I was grown spittin out them hundreds
In the streets I found it wasn't no real monstas
It was my dogs the monstas the law
They wanna see me in the wall
Them monstas tryna take me out
