

# No Security

Fredo Bang

Put a brick on my wrist, put a brick on your mans  
I'm representing the brand, they want me dead they got plans  
100 shots in the Lamb, catch a shot or be down  
Niggas switch, I can't stand, want me dead or in the can  
I just caught one in the head  
I ain't running, I ain't scared I just ain't tryna be dead  
You know what I rep and you know what I bleed  
We the ones put these niggas on Tees  
Big dog, I can't eat with no fleas  
Popsicle put a nigga on freeze  
Talk down but I still be up  
Hundred on me, is you gonna take it or what?  
They need security to go to they hood  
How you gonna say that they realer than us?

I was gangsta 'fore the buzz, stain that nigga like a rug (Yeah)  
Everywhere I go it's love, even crips call me blood  
30 rounds only time that I'm deep  
Real nigga from the boot to the streets  
Name a place and I bet that I'm good  
Don't need security to go to my hood

Make sure you tell 'em I'm built, make sure you know your on go with the burner for real  
Make sure you tell them that I do not flinch, vision get blurred whenever yo u squint  
Clear for departure now, solo in parts of town you niggas don't walk around  
Streets love a real street nigga love, they roll the red carpet out  
That image a gimmick so how is you realer then us what is they talkin bout  
I only fear Allah and I'm runnin it up, aye, you gotta walk me down  
Make sure you tell 'em, I'm one of them men and I'm standing on ten from the street to the pen  
Make sure you tell 'em, I step in the section respect is on heavy and I want to pretend  
Make sure you tell 'em I'm ready to die, if you shoot and you miss then a murder commence (Allah akbar)  
Bread Winner try, pelican fly, the pull up and put you in burgundy Timbs
