Facts

I know a nigga from the south side he threw up the southside
He done lost it all before sometimes its hard to cut ties
Dealers killers runnin through my neighborhood
Gorillas with triggers just tryna make it out the hood
His niggas just got killed but he didn't even cry
Look in the mirror he know something wrong deep inside
On parole but hes still bout the ride
Another partner gone another reason to slide
I been down this road before can see the pain in his eyes
He gave everyone his all and on his name they still lie
He had some partners turn to opps and watch the others pick sides
And he put his trust up in a bitch that only filled him with lies

I know some livin off some welfare
They people hungry but they don't care
I know a nigga rob you bare face
They so ignorant they will kill you over last place
I know some livin off of welfare
They people hungry but they don't care
I know a nigga rob you bareface
They so ignorant they'll kill you over last place

His partner died up in his arms and left a stain on em
On the floor he seen the brains of his main homey
Ain't know how to cope he hit the shop and tat his name on em
Now when he walk around he wear that pain on em
He play it eye for eye he try to see through the lies
He don't trust nobody he know its do or die
He know the dos and donts switch on his crew he won't
He just tryna make a way cause any day could be his day

I know some livin off some welfare
They people hungry but they don't care
I know a nigga rob you bare face
They so ignorant they will kill you over last place
I know some livin off of welfare
They people hungry but they don't care
I know a nigga rob you bareface
They so ignorant they'll kill you over last place
