

## Aunt's Place

Fredo

What was Fredo like growing up?  
Well, he was cut from the cloth of the heavens  
You could— could've seen that from— from— from day one  
The whole circle, yeah  
That whole circle, you could see that, haha

And that's meant to be blood (Blood)  
You'd be broke for a year, or my rent for the month (Month)  
Little yutes wanna trap, then we're sending them up (Up)  
I got nitties out of town and I send them my love, made me who I am today  
Yo, I went from a ball, now I'm lookin' at a brick  
Slice just done a four, now he's lookin' at a six  
Billy just done a six, now he's lookin' at the strip  
I use to dream of a hundred racks, now that's lookin' like my wrist

This was always meant for me, that's what my aunt said (Aunt said)  
Mum kicked me out my house, I'm at my aunt's place (Aunt's place)  
We was throwing guns out windows in a car chase (Car chase)  
When I should've been in lessons with my classmates (Yeah)  
This was always meant for me, that's what my aunt said (Aunt said)

Man, I know these niggas with me for the ride (For the ride)  
I tell these niggas that I listen, I but I lied (But I lied)  
Nah, I don't care what you've been thinkin' on your mind  
You didn't visit me up in them prisons any time  
Oh my, oh my, went from juvenile halls  
Straight to YOY (I did it), I never asked for this kind of life  
Tell me what you see when you look in my eyes  
They use to look down on me, now they lookin' surprised  
Yo, they say you need money just to make money  
We never had none, so how we gonna' make money?  
These niggas talk a lot of shit, that's why they stay bummy  
Ayy, mummy, I think it worked them times you prayed for me  
My little nigga got no hope, just a crack pot (None)  
And when we caught him, he got soaked on the back block (Done)  
Yo, I'm surrounded with the coke, getting grams off (Done)  
But now I'm charting so I do it with my hands up (None)

This was always meant for me, that's what my aunt said (Aunt said)  
Mum kicked me out my house, I'm at my aunt's place (Aunt's place)

I never knew you was a snake until you snaked me (Me)  
I never knew you was a hater, now you hate me (Hate me)  
Broke and blurry, but this money got me HD  
You're old and thirty, boy, no wonder why you hate me, it's crazy  
What was I thinkin' when I went and put trust in you?  
First time you say no, they're done with you, it's nothin' new (Nothin' new)  
Coke stains on my Louis drop from cuttin' food

So I took it off and brought on YSL to substitute  
You don't ride out, but you talk, so I can't fuck with you (Shh)  
And riding out ain't going over there, it's touching you (Yeah)  
Jumped in the canal, man, he's such a fool (Pussy)  
I got a tiny little temper, but my money's tall (Tall)  
So if you fuck around with me, then something's going on (Going on)  
Our first shotgun wasn't sawn, we was going long (Going long)  
I gave my brother's dad crack when I know it's wrong (I know it's wrong)  
But I didn't make him smoke crack, that's the road he's on  
I told myself I'll sell a brick then put a Rollie on  
But the first brick I own was a stolen one  
On the road, you don't see where you're going, holding on (Nah)  
Bought a gun, shot a nigga, then we sold it on  
It's only now I'm meetin' different kinda people  
And realisin' we grew up 'round a different kind of evil  
My auntie's on drugs, man, she's living by the needle  
If I leave her 'round my chips, she'll be stealing like a seagull

And that's meant to be blood (Blood)  
You'd be broke for a year or my rent for the month (Month)
