

Do You Right

Fredo

I wanna do you right
What should we do tonight?
Where should we go? I don't know
I'll let you choose the flight
I know my shooters all night
Drippin', I scuba dive
Slippin', you lose your life (Life)

Girl, I wanna do you right (Right)
What should we tonight? Yeah
Where should we go? I don't know
I let you choose the flight (Skrrt)
I'm Fred, my shooters are mine (Yeah)
I drip, let's scuba dive (Yeah)
Don't slip, you lose your life (Yeah)
Big whip, no Uber rides, yeah

We pull up, hop out all on the other side
And shoot your guy (Slatt)
Girl, I don't wanna tell you another lie
I didn't choose this life
This life chose me (Me)
Got an iced Rollie
Touch it, you might go sleep (Sleep)
Little man, I spend di bags
My name is Freddy, I never lie

Girl, I can't play with my nose
But I know how to play with the stove (Stove)
PG, everyone knows
Violate us, then you gotta go
When we're drinking cocktails
I'm on the phone hittin' block cells
A lot of them tried, a lot failed
Them man can't keep up with the opps now
Slow mo' (Slow mo')
Showin' for fifty, I don't go (Don't go)
Up and down all day like a yo-yo
I got my gun, I don't need to be bolo
She givin' head, all in the bands, screamin' out, "YOLO"
Can't go out again without her and her friend wantin' a photo
Give me a reason
I like my chicken and women with season (Season)
She's eatin' the meat but she's vegan (Vegan)
Don't chase for the pussy, I ease 'em (I ease 'em)
My niggas are drippin' in season (Season)
The opps have been drippin', they're bleedin' (Bleedin')
My bro lied in my face
Now what he says, I don't believe him
One time, we're runnin' from one time (One time)
They think I give down to the young guy
Won't be a nightstick
If one of my sons rise
On point, your lace untied
I can't even trust one guy (One guy)
Let me hear somebody start up
Make bro let it burn like he's Usher

I might go slide in your DM
But I won't ride in no BM
Got feud then you're likely to see him
Mommy said, "Money ain't nicer than freedom"
I'm drippy, I'm litty
That shit that just frightens my BM
She know every girl in the city
Deep down, really tryna be with 'em
I got a bad bitch, boy, you can't have her
Think I do magic the way that I vanish
She was a savage, now I'm livin' lavish (Lavish)
My niggas more flashy than hazards
I'm feelin' you
White girl with me, Olivia
She just got in from Bolivia
Damn, I can't wait to get rid of you (Yeah)

I wanna do you right
What should we do tonight?
Where should we go? I don't know
I'll let you choose the flight
I know my shooters all night
Drippin', I scuba dive
Slippin', you lose your life (Life)

Girl, I wanna do you right (Right)
So what should we tonight? Yeah
Where should we go? I don't know
I'll let you choose the flight (Skrtrt)
I'm Fred, my shooters are mine (Yeah)
I drip, let's scuba dive (Yeah)
Don't slip, you lose your life (Yeah)
Big whip, no Uber rides, yeah

We pull up, hop out all on the other side
And shoot your guy (Slatt)
Girl, I don't wanna tell you another lie
I didn't choose this life

Little man, I spend di bags
My name is Freddy, I never lie

From like thirteen years old, I was saying, "Yeah, this yout's always about"
He's always involved
Any scenario or situation that goes on, he's there
Yeah, and I remember saying, "Yeah, dem youths, they are keepin' up"
Better things, boy
We need to send them as much guidance as possible
