

Independence Day

Fredo

Man get money hella ways, it's just not one way nigga
It's Wednesday but I got bae making me Sunday dinner
My niggas robbin' drug deal, some grave diggers
He ain't shot shit but talks it, one lame driller (Lame)
I know labels don't wanna it end this way
But I had tell them it's Independence day
'Cause I'm tryna run it up, talkin' endless pay
My coke still sells itself, that's Independent yay (Yay)

I'm the real deal, but one Independent (Man did that)
I guess you can call this Independence day
New Cartier watch that's frozen and the pendants cray
He die right way, he grew up, how did it end this way?
See me chattin' with piers, they ain't got shit to show
But they've been trappin' for years
Three little V dots was on a stabbin' career
That came with six like a packet of beers
No drinks, these are actual years
And they know they wanna end us, hoping prisons where we end up (End)
Put the G-Wagon in S Plus, then I give your friends dust
Killa on them verses, plus the boss got them hooks
I meet girls and make them realise they got soft spot for crooks
Meanwhile my soft spot, that's getting locked and cooked (Locked and cooked)
Judge tried throw it, but mello had to dodge the book (Dodge)
Bitches call me handsome, they say I got the goods
But if I go broke, I know they'll say I lost my looks

Man get money hella ways, it's just not one way nigga
It's Wednesday but I got bae making me Sunday dinner
My niggas robbin' drug deal, some grave diggers
He ain't shot shit but talks it, one lame driller (Lame)
I know labels don't wanna it end this way
But I had tell them it's Independence day
'Cause I'm tryna run it up, talkin' endless pay
My coke still sells itself, that's Independent yay (Yay)

Shout the AGB's, I've been takin' them in
I thought BA's guns got signal, how he's making it rain
OG's still be living off some works from years ago
But we're some young wild niggas, that don't feel that old
And no I can't be lit alone, got a watch for the bruddas
These days I lost track, how much watches are floodin'
And lost track how much guap, that I dropped to my mothers
Ay bro, I'm thinking what watch to cop for the summer (What watch?)
I get it in and get it dropped on my runner
His baby setting no children, he's watching the grubba
Teacher said that you'll make money, as a doctor and plumber
But I chose the trap house, now my watches are stunner
Never really thought I'd be the type that's born in (Born)
I was on my bike at night, try rip up Michael's organs
Now I got a room that's strictly filled with Michael Jordan's (Jordans)
Put my baby momma in rolex, no Michael Kors's (Man did that)

Man get money hella ways, it's just not one way nigga
It's Wednesday but I got bae making me Sunday dinner
My niggas robbin' drug deal, some grave diggers
He ain't shot shit but talks it, one lame driller (Lame)

I know labels don't wanna it end this way
But I had tell them it's Independence day
'Cause I'm tryna run it up, talkin' endless pay
My coke still sells itself, that's Independent yay (Yay)
