

It's Only Us

Fredo

It's only us
It's only us
It's only us
It's only us

I like the way you been keepin' it a buck with me
Remember you sayin' you didn't want to fuck with me
Now you're stuck with me
I'm still adjustin' to you
You're still adjustin' to me, but can't put trust into me

You heard I'm quick to fuck, then I slide just like a ghost
And I won't lie, 'cause that rule used to apply for hoes (It did)
You're way less shy with your friends so I invite you both
I like how you got it going on, but you don't like to boast
You don't even like to post
You ain't even like the most
You been here the whole time while I'm actin' like my eyes were closed
Really went from being broke one day to when my eyes were froze
And I know girls don't really love me, it's the life I chose
I never used to try, but I ain't lyin', now I'm tryin' more
It's like a rubber by a porch and try and talk
To tell you how I'm feelin' (Feelin')
I tell you how I'm grievin' (Grievin')
My niggas left the road talk, they never got to tell me that they leavin'
Like I didn't get to tell you I didn't mean it (I didn't)
All that cheatin' that I done
Real talk, one of the reasons, I was young
Never even thought about you
I just seen that, have some fun
But that pain still hurts you and the healin' isn't done, like

I like the way you been keepin' it a buck with me
Remember you sayin' you didn't want to fuck with me
Now you're stuck with me
I'm still adjustin' to you
You're still adjustin' to me, but can't put trust into me

It's only us
But I still got that villa with that pool
No, I don't swim, but I just smoke while you swimmin', I'll be cool
You been around since school
Your ex used to go through your phone and hit you
It's cool, babe, you been around a fool
But girls could never trick me (Never)
That's 'cause I've been around the mall
But you're different from the rest
I swear I feel it in my chest (I feel it)
I know he's seen them pictures of us and it's leavin' him depressed
I'm all up in your mind, I be right through you, and that's even if you left
Remember you said that you're leavin' in a text
'Cause I usually know how to turn the beef into some sex
Don't wanna see me in the flesh
But hold on, wait for me
I ain't even at my best
Chasin' dreams, I ain't even had a rest 'cause I can rest when I die
Ain't gonna lie, ain't the rest or the best, but I try

Let this life get to my head, you couldn't get a reply
I thought I was way too drippy
Is that why you left me to dry?

I like the way you been keepin' it a buck with me
Remember you sayin' you didn't want to fuck with me
Now you're stuck with me
I'm still adjustin' to you
You're still adjustin' to me, but can't put trust into me
