

# Make Mistakes

Fredo

When you're makin' money, makin' cake (Cake)  
They don't wanna make you wait  
And when you make as much money I make  
Then you can make mistakes  
I cheated and I lied (Lied)  
Said you're leavin', but you lie (Lie)  
We're still growing, none of us are goin' even if we try  
Ten packs, I put it on the flats, they need it to survive (Survive)  
Now I'm streamin', so I be getting Ps in even if I die (I die)  
I saw a sign my guy was hatin', so I'm keepin' him in mind (Mind)  
Most niggas try and hide the hate, you gotta read between the lines

I had accepted that them boys'll talk shit even when we slide (Slide)  
Business man, now I got real money, that's all legal on my mind  
But nine times out of ten the stuff illegal in the right  
Now I don't wear my chain in drive, in case it leaves a nigga blind  
Yeah, my past keeps catchin' up to me when I try leavin' it behind  
I robbed so many niggas back them days that my Visa still declined  
You niggas broke because all you do is smoke and you're sleepin' all the time  
Watchin' YouTube vids, speakin' about other people and their lives

When you're makin' money, makin' cake (Cake)  
They don't wanna make you wait  
And when you make as much money I make  
Then you can make mistakes  
I cheated and I lied (Lied)  
Said you're leavin', but you lie (Lie)  
We're still growing, none of us are goin' even if we try  
Ten packs, I put it on the flats, they need it to survive (Survive)  
Now I'm streamin', so I be getting Ps in even if I die (Die)  
I saw a sign my guy was hatin', so I'm keepin' him in mind (Mind)  
Most niggas try and hide the hate, you gotta read between the lines

Yeah, I'm gettin' to the profit, no time for rumours and the gossip  
No, my girl don't fuck with broke boys, only wanna do it with the bosses  
Trap boys, I left Lisa's house, went and moved into a office  
All black, when my killers ride, my shoes are movin' Gothic  
You can ask around in the city and they'll tell you that my wrist knows magic  
All I do is wave it in the air and make chick go vanish  
Disappear, then reappear in the mornin' with some missin' hair  
Free my nigga Sho, I miss him there, man, I wish you're here  
Still slidin' with my shooters, know the lightning come from Cuba  
I stop grindin' for right now and I started grimeing for the future  
Fuck a nine-to-five, can't spend my life all typin' on computers  
Robbers sittin' in the jail cell, reading Bibles, eating tunas

I know I cheated in this run  
You must be feeling like it's long  
You can get back, if you want  
Bae, if you get back, then I'm gone  
Them boys don't get back for their don  
Their only get back was a song  
Any time I get back, she creep out, step back in a thong

When you're makin' money, makin' cake (Cake)

They don't wanna make you wait  
And when you make as much money I make  
Then you can make mistakes  
I cheated and I lied (Lied)  
Said you're leavin', but you lie (Lie)
