Have you ever robbed a boy and took his roly home?
Life's hard man I came up of a stolen phone
Used to do the trap had me feeling like a rolling stone
Cause I had way more 30 chips than a poker holes
I play to win, have you ever stood over the pot to bake a sin?
Give me phones I make them ring
And if you're talking bout my neck that's crazy bling
And any time my phone makes a funny sound I change the sim
I know that flipping packs ain't the way to live
When I was 12 I watched the OG's rape the strip
I used to love that shit it didn't make me sick
And now I'm getting money and them niggas hate the way I live
