

Harvest Spoon

Free Kitten

I was out in the backyard
With the harvest spoon now
Cosloy and keanu are down the street
And i got me a quick one
On the outskirts of town man
Right outside of guysville
Well it's gonna be a 7"
And i gotta a hot up for it

I was playing in the airfield
And my heart is broken
So i took the soft road
And i saw you sittin' there
In the backroad to no here
In the sex god factory
Got a hard on for you
As long as an elbow
