

# Hey Ken, Someone Methodically Mushed the Donuts

Free Throw

These days I like to sleep my life away  
But back then I'd stay awake just to see your face  
I wouldn't sleep for days  
But now I sleep for days

These days I like to sleep my life away  
But back then I'd stay awake just to see your face  
I wouldn't sleep for days  
But now I sleep for days

I never should have said that I loved you  
Whoa-oh-oh  
I never should  
I never should have said a goddamn thing  
I should have kept my fucking mouth shut  
And then it would have stayed  
It probably would have stayed  
I know it would have stayed  
I know it would have stayed the same  
(Stayed the same)
