

Such Luck

Free Throw

I know that we fucked up
I know that you don't care
I've learned that such luck
Is something I have to live with

But it still hurts, but it still hurts
It makes me feel worse
It makes me feel worse

I know that holding up alone is a bad idea
And I know that blowing up your phone is a bad idea

It'll make me feel worse
God, it makes me feel worse
I guess that I should feel cursed
'Cause it fucking still hurts
