

# Back Into the Land of Light

Freedom Call

We are back  
We are back  
Into the glorious land of light

In the distance there's a light  
Leads us through the misty night

Until the end we believed there's something golden

The glory day has begun, we're on our way, we're on the run  
To the place, to the promised land of deliverance

Back to the light

See the tears in my eyes, reflecting new life  
Heard all my cries, oh I will be there  
We're longing for the time we're going back

Back to the land of light  
Where the angels of tomorrow are sending out a sign of victory

We climb the stairs up, we're coming home  
To the source of life, to our pleasure dome  
The reason to believe, the answer to everything

More than ever, when worlds collide  
Overwhelmed and full of pride  
Opens the gate to heaven, divine, oasis and paradise

Back to the light

See the tears in my eyes, reflecting new life  
Heard all my desperate cries, oh I will be there  
We're longing for the time we're going back

Back to the Land of Light  
Where the angels of tomorrow are sending out a sign of victory  
Back to the Land of Light  
Where the legionary eagle has landed as the eternal sign

We are back  
We are back  
Back to the light

Goin' back, to the land of light  
Where the angels of tomorrow are sending out a sign of victory  
Back to the land of light  
Where the legionary eagle has landed as the eternal sign.
