Rock the Nation

Freedom Call

Oh, live your life
Oh, live your life

Smile away all your tears
Don't be scared about the future
Better times and happy days
Are coming back again

Let it shine in your mind
Make your world all right
Deep inside you can feel
It's like turning back the time

Keep the flame of hope forever
Save your spirit free your mind

Let the good times rock the nation
Let the good times rock the night
Our spirit is up rising
And the flame of hope is shining
Let the good times rock the nation
Keep the bad times out of sight
To our lust for life forever for eternity

Is it real, it's a dream
Or is it just imagination
Can you see what you believe
That makes your world all right

Keep the lust for life forever
For we are freedom call

Let the good times rock the nation
Let the good times rock the night
Our spirit is up rising
And the flame of hope is shining
Let the good times rock the nation
Keep the bad times out of sight
To our lust for life forever for eternity

Oh, live your life
Oh, and live it free
Oh, live your life for eternity

Let the good times rock the nation
Let the good times rock the night
Our spirit is up rising
And the flame of hope is shining
Let the good times rock the nation
Keep the bad times out of sight
To our lust for life forever for eternity
Let the good times rock the nation
Let the good times rock the night
Keep the flame of hope forever, free your mind
Let the good times rock the nation
Keep the bad times out of sight
Let the good times rock, the good times rock

Tonight
