

When Hello Means Goodbye

Freestyle

I've been waiting for you
I wanted to see who you'll turn out to be
Imagining who you would be
The day you began to live in me

And I wonder
And I wonder

I can't wait to say hello
Can't wait to say hello

[Interlude]

And as slowly you grew
Something happened to you that I never know

Could all the reasons be true
They keep telling that I lost you

But you were mine
You were always mine

Should I say hello
Or do I say goodbye
Can you hear me say hello
Can you hear me say hello
I can never say hello
But I won't say goodbye
