

# Kill My Vibe

Freeway

Why would you come in here and kill my vibe  
And I'm having the time of my life  
Why would you come in here and kill my vibe  
And I'm having the time of my life  
Why would you come in here and kill my vibe  
And I'm having the time of my life

You ever having a real good time, just chilling  
And then somebody from outer space just comes and says some bullshit  
That puts you in a negative place  
You be like, what the fuck you tell me about that for?  
I'm having a ball right now  
I'm having the time of my life  
Those are the people you gotta get the fuck from around you  
The ones that always fuck up a good time cause they're not having a good time  
Fuck away from me  
Yeah!

Why would you come in here and kill my vibe  
And I'm having the time of my life  
Why would you come in here and kill my vibe  
And I'm having the time of my life  
Cha yeah!  
Kill my vibe, don't kill my vibe

Vibrations  
The first dimension for me is the dream  
I got to be able to dream big, pause  
Dream clear, it got to be perfect  
And as soon as I start dreaming and you start talking that bullshit  
Telling me the negative side, and why we shouldn't do it and when?

Miss me and my closest ones, it's that such and such  
We just having fun, please don't kill our vibe  
She bought to ride the pony, she like Ginuwine  
I'm bought to eat that kitten, just like it's dinner time  
Hey, hey, hey, hey  
Having the time of our life!  
I like to architect the perfect future  
Cha yeah, don't kill my vibe  
When we're having the time of our life

Why would you come in here and kill my vibe  
When I'm having the time of my life

Why would you?
