

Recession Proof

Freeway

Yeah

I pull a big Bentley through the intersection
I always stood tall when my men were tested
Ain't worried 'bout no paper 'cause I been invested
Mobbing through this W O R L D
Like what recession?
We been masked up
What pandemic?
I turned the pandemic to like 2 Benz's, 3 new businesses
Brought me like a cool million
Save the racket, no back and forth, we don't do tennis
Ball like Lou Williams
Yeah, ball like LeBron James
Nigga we true winners
We been eating, could invite you to a few dinners
Play no games, listen to Dame, 'cause he got true vision
Yeah

Sometimes you gotta visualize the dream
When you dream, you have to visualize expensive things
Sometimes you have to visualize the dream
When you dream, you have to visualize expensive things

Sometimes you have to take the time to dream
When you dream, visualize expensive things
Sometimes you have to visualize the dream
When you dream, you gotta visualize expensive things
