Behind every man is a woman
Behind now I do it for attention
If I ain't guess do it all the time is
True, these other women false but you
True, we can kick it as long as you keep it,
True, I'm down to take it down with you
True, forget the consequences.

And she don't even give a five but time is the message,
I'm only chop it off before we connecting
Body like our now glass sweetest then took connected,
Each side my rock, Louie hin back nothing less

Or every day she do for me don't even let her now or bad,
Every day she move for me don't even let her now our past,
Take my time and massage in the shower
Say I got the power 'cause I never need the power that long
Yeah swear in our back 'cause you can't get in our back
Physical that she spend the nights in bollies,
We take long nights trial just to spite the mollage
And at the high school she wanna ride the college,
