

Imaginary Friend

Freezepop

She met him far away, Walking in a park one summer's day
they talked because they could, excited because the other under
stood
then one night, he was nowhere to be found (found, found, found
)
under the starlight, vanishing without a sound

Imaginary friend
too good to be true, gone before she knew
imaginary friend
she can't see his face, nothing left, no trace
imaginary friend
no one will believe, was she so naïve
imaginary friend
was he standing there, disappeared into thin air

She's on the road again, this time around she saw him on a plan
e
it was a lonely flight, he leaned in close and squeezed her han
d so tight
then one night, he was nowhere to be found (found, found, found
)
under the starlight, vanishing without a sound

Imaginary friend
too good to be true, gone before she knew
imaginary friend
she can't see his face, nothing left, no trace
imaginary friend
no one will believe, was she so naïve
imaginary friend
was he standing there, disappeared into thin air
