

New Zealand

French Films

When they say We were never old enough to care It's like first
of November

And when they say We were never good enough to love They've been
washed in the holy waters

So I wanna die With my eyes full life All the years I survived
I knew nothing about Nothing about

So I wanna die With my head full life All the years I survived
I knew nothing about Nothing about so much

Hope we got far 'Cause here it's the same as for a bear To be stuck
inside a bird cage

And if we swim To see New Zealand with our friends Oh would you
please bury me there

And sing Together for the new start I'm sailing Through the mighty
coast lines As a ghost on a holiday

So I wanna die With my eyes full life All the years I survived
I knew nothing about Nothing about

So I wanna die With my head full life All the years I survived
I knew nothing about Nothing about so much
