Following Waves

French Kicks

Oh, lay in the sun
Following waves have come again, I know
Oh, …
Never too late to want it anyway

I see it in some
You were about to run away, I know
Oh, I'm going alone
Moment is gone, we want it anyway

You can follow me up
You can follow me down
I would like it in there
All the running around

Do you know what you are?
Do you know what you want?
I could find it easy
I could take it so hard

I will love what you are

Oh, later on
We were about to run away, I know
Oh, I swear you were wrong
Moment is gone, we want it anyway

You were my favorite one, what a way to run
I can find it all about you
You were not afraid to go all the way but no
I can find my way around you
