

Wrong Side

French Kicks

Got you on the wrong side of me
Went and had my mind made up so suddenly
And it's being hungry when you can't take the thought away
Got you on the phone guiltily
Thinkin' how you looked at me so eagerly
But it was some of them kids in the city
Ended up at home on empty with the windows down
Tryin' to say everything but knowin' you
I'd hate to see you lookin' so down
Wish you weren't so tied to me but you are
Sooner later happens to all almost you all
Right on my way home
Still in my mind you can you give us a call?
"Summer's so fine I don't need you at all"
Right you so said
Yeah
Ended up at home on empty with the windows down
Every time I look at you
I see you just like lookin' through the windows downtown
Ended up at home on empty with the windows down
Tryin' to say everything but knowin' you
I hate to see you lookin' so down

Got you on the wrong side of me
Went and had my mind made up so suddenly
And it's being hungry when you can't take the thought away
And it saw this willin' to kill the rest of the day
I tried to look at you that way it drives me hey oh ah
Ended up at home on empty with the windows down
Every time I look at you
I see you just like lookin' through the windows downtown
Ended up at home on empty with the windows down
Tryin' to say everything but knowin' you
I hate to see you lookin' so down
