She look even better yeah, when she undressed  
Take her downtown when she get upset  
She gon' get it all yeah, and none less  
She don't wanna spend the night, she just wanna spend her life  
She just wanna take a flight, go to paradise  
Said she down to roll like a pair of dice  
Now she living off me like a parasite

Let's take a flight to Cocaine Paradise  
To Cocaine Paradise, me and you  
Let's take a ride and fly high in the sky  
So I can join the mile high club  
This ain't what you need baby, this is what you want

I need you to pay attention  
And you're all mine, I forgot to mention  
Let's go all night, I'll teach you a lesson  
I love how you squeeze my arm when I'm stressing  
Then you ask me why I'm flexing  
And go all night from the moonlight til the sunrise  
So stay by my side  
I can tell you're downing right
