

# Falling

French The Kid

(Ayo TwinTwo, this is a bad boy beat)

Baby, leave me alone  
All the drinks and the drugs  
Swear they don't work no more  
I'm just tryin' to be happy, tryin' to be happy, tryin' to be

I got drugs in my mind, drugs in my system  
Fighting all these voices in my head, but they don't listen  
They don't listen, you see  
I got demons in my head, they just don't want me to breathe  
And I'll be living in this happiness I cannot receive  
Deceived boy with a spirit begging to leave  
And I got my brother threatening to leave  
On the other side there's happiness, is what he said to me  
Never-ending sea  
Through the tunnel we proceed  
To flee the living life of all these demons we can see, uh  
My bro, I get that  
But I got people around me that won't accept that  
Yeah  
I got people around me that won't accept that  
My bro, I get that  
But I got people around me

'Cause I fly up like a butterfly  
Party till I feel alive  
Least I had fun before my bros attempted suicide  
Money's where we fantasize  
Feel like I'm falling through the sky  
Yeah  
I feel like I'm falling through the sky  
Money's where we fantasize  
Yeah

Tryin' to be happy  
Baby, leave me alone  
All the drinks and the drugs  
Yeah  
'Cause I'm just tryin' to be happy  
Yeah  
But, baby, leave me alone  
All the drinks and the drugs  
I swear they don't work no more

Swear they don't work no more  
Swear they don't work no more  
Yeah  
'Cause all the drinks and the drugs  
All the drinks and the drugs  
Swear they don't work no more
