

## Body Problem

Frenship

Your heart rate dropped to 22  
So we grab the keys and rushed to the car  
Told the dog we'd see her soon and turned on her favorite tv show  
Your clammy hands in mine, making me think damn those hands look cute

I know I drove too fast, but for once you didn't mind  
You told me to tell you a story so I told of that time  
When I pissed on that cop car in the quad and ran for my life

Fluorescence is such a pretty word for such an ugly light  
Grey wallpaper in the waiting room, cuz nothing's black and white  
I'm sick and sick of trying cuz the trying's done enough

That won't do  
Your body is my problem  
I'm scared too, what if there's no solving

We're way past tears and living here it's not, a home  
You don't complain, you smile through pain and I'll I do is hope

That's not fair  
It's not fair

We'll pass the time in Positano and drink your favorite wine  
Go for a run in Colorado, I know you like to fly  
Put your finger on a map, anywhere is fine, we'll get high  
I know you've heard this so many times but I love you so much I could cry

Such a pretty woman for such an ugly fight  
I wanna get you out of waiting rooms and get this off your mind

That won't do  
Your body is my problem  
I'm scared too, what if there's no solving

We're way past tears and living here it's not, a home  
You don't complain, you smile through pain and I'll I do is hope

That's not fair  
It's not fair

This won't do

I'm scared too  
This won't do
