

Cry (Let It Out)

Frenship

Getting used to falling, is not like me
So in my head, I can't keep my feet
I used just to count to three like one, two, breathe
Now that I'm falling I'm losing steam

Cry let it out, fuck the bigger picture
Cry let it out, 'cause your money's all gone
Cry let it out, there's no one left to listen
So cry let it out, let it all out

It's been a month since I got any sleep
Too much fighting is making me weak
I used to just stare right out my window with no care in the world
Now I'm too high strung
Look at me, I'm practically crying
Look at me, I'm practically crying

Cry let it out, fuck the bigger picture
Cry let it out, 'cause your money's all gone
Cry let it out, there's no one left to listen
So cry let it out, let it all out

Cry (fuck the bigger picture)
Cry ('cause your money's all gone)
Cry (there's no one left to listen)

Let it go, fuck the bigger picture
Don't think twice, 'cause your money's all gone
Let it go, fuck the bigger picture
Don't think twice

Cry let it out, fuck the bigger picture
Cry let it out, 'cause your money's all gone
Cry let it out, there's no one left to listen
So cry let it out, let it all out
