

## Dream State

Frenship

Waking 'fore the sun  
Try my best to keep my head down  
Dress the rhythm up  
But it faithfully comes undone  
I come undone

The timing's never on my side  
If my feet start to slide  
I won't let 'em  
I won't let up

I'm dying in a dream state  
But I've been here all along  
I'm dying in a dream state  
I'll be here even when I'm gone

Cutting through the weeds  
Screaming just to hear my voice now  
Wrestle disbelief  
Am I just adding to the noise now?  
It's so loud out

For every single ounce of doubt  
That's weighing on me now but  
I won't let 'em  
I won't let 'em

I'm dying in a dream state  
But I've been here all along  
I'm dying in a dream state  
I'll be here even when I'm gone

And the clock keeps tick tick ticking on  
I'll keep singing my song  
I won't let up  
I won't let up

And the clock keeps tick tick ticking on  
And I'll keep singing on my song  
(Because)

I'm dying in a dream state  
But I've been here all along  
I'm dying in a dream state  
I'll be here even when I'm gone

I won't let up
