Frenship

She says we haven't gone out in a while
Cause I'm puttin' on the highlights
But I said the noise just calms me down
Calms me down
Calms me down

How many times can a person change
And keep steady vision on the one you chose to love
Chose to love

We keep putting out little fires
Coming from every side of it
Trying to see it through your eyes

Putting in the mileage
Can't see the forest through the trees anymore
But there ain't that much left for us to burn

Us isn't what we need now
Us isn't what we need now
But I'll still take the train down
I'll still help you move out

Us isn't what we need now
You can call me if you break down
Can't say we didn't go all out
All out

I hear the echo of home improvement
Turn it up real loud, there's no good way to do this now
Do this now

I know the boys gonna see me break down
I know it's not time, for me to be too proud
No matter how

We keep putting out little fires
Coming from every side of it
Trying to see it through your eyes

Putting in the mileage
Can't see the forest through the trees anymore
But there ain't that much left for us to burn

Us isn't what we need now
Us isn't what we need now
But I'll still take the train down
I'll still help you move out

Us isn't what we need now
You can call me if you break down
Can't say we didn't go all out
All out

Time to let it go
Time to let it go
Time to let it go
