

# Muscle Memory

Frenship

I haven't set the table in a while  
Keeping the status quo  
Misinterpreting a friendly fire  
Even my body knows

I don't mean to  
Do what I always do

My muscle memory  
Has a mind of its own  
It's all the stupid shut  
That I find sets me off

I lose my, I lose my, I lose myself  
I lose my, I lose my, I lose myself

Haven't asked you how your day goes  
Because it ruins mine  
Promise that I still wanna know  
My body draws the line

I don't mean to  
Do what I always do

My muscle memory  
Has a mind of its own  
It's all the stupid shit  
That I find sets me off

I lose my, I lose my, I lose myself  
And I lose my, I lose my, I lose myself

I'm not over it like I thought I was  
I'm always keeping score  
It's the little shit that sets me off  
My heart is getting sore

I lose my, I lose my, I lose myself  
And I lose my, I lose my, I lose myself
