

# Songs For The Weekend

Frenship

Nobody's eyes are bluer than yours  
I pack a cooler, I put in a course, course  
Put too many down turn my phone upside down  
And let this life arrive in style

Cuz this about late nights, slowing down and fog rolling in  
Take a moment, pause, for the light growing thin  
Politics and physics don't mix with my head  
Forgive me that sometimes I can forget that

We just write songs for the weekend  
Knowing no one necessarily needs them  
We drive a little farther cuz it's scenic  
Life is too short to lose the feeling

We just write songs for the weekend  
Except for when it's snowing then we're skiing  
Life's a little better with some seasoning  
We just write songs for the weekend

I wrote this song then forgot all the chords  
I think it's funny you can't rhyme with orange... wait  
Put too many down turn my phone upside down  
And let this life arrive in style

Cuz this about late nights, slowing down and fog rolling in  
Take a moment, pause, for the light growing thin  
Politics and physics don't mix with my head  
Forgive me that sometimes I can forget that

We just write songs for the weekend  
Knowing no one necessarily needs them  
We drive a little farther cuz it's scenic  
Life is too short to lose the feeling

We just write songs for the weekend  
Except for when it's snowing then we're skiing  
Life's a little better with some seasoning  
We just write songs for the weekend

Doo doo doo doo  
Doo doo doo doo  
We just write songs  
For the weekend

Doo doo doo doo  
Dooo doo doo doo  
We just write songs  
For the weekend

We just write songs for the weekend  
Knowing no one necessarily needs them  
We drive a little farther cuz it's scenic  
Life is too short to lose the feeling

We just write songs for the weekend  
Except for when it's snowing then we're skiing

Life's a little better with some seasoning  
We just write songs for the weekend
