

Speed Up Time

Frenship

The longer we are apart, the closer we are to being strangers
That's why I'm burning miles
Honey you know you're worth the danger

Fourteen days away
Is two weeks too long from my home

So I'm running yellow lights, on my way to you
Down Mulholland drive, overlook the view
Gunning through the night, on my way to you

And I speed up time
And I speed up time
And I speed up time
Can I Speed time?

The faster I get there the more time we'll have to slow it down
Heaven made that smile to shine up on my stupid face

Fourteen days away
Is two weeks too long from my home

So I'm running yellow lights, on my way to you
Down Mulholland drive, overlook the view
Gunning through the night, on my way to you

And I speed up time
And I speed up time
And I speed up time
Can I Speed time?

Can I speed up time?
Can I speed up time?
Can I speed up time?
Can I speed up time?
