

# Try

Frenship

Drunk in Berlin, you put my name on your skin  
It was only you and me that night  
I could taste on your lips, you were starting to slip  
I never knew a kiss could bite

You think it's good when it's bad 'cause you can't do the math  
You're always high when I crash when all you gotta do is try for me  
Hurt that's been had, is it worth coming back?  
To fill the seams and the cracks? All you gotta do is try for me

All you gotta do is try for me  
All you gotta do is try for me

Time goes slow when I can't let go  
Of the moments I hold with you  
Now my heart beats fast  
Like wind on the glass  
When I'm tryna make it last with you

You think it's good when it's bad 'cause you can't do the math  
You're always high when I crash when all you gotta do is try for me  
Hurt that's been had, is it worth coming back?  
To fill the seams and the cracks? All you gotta do is try for me

All you gotta do is try for me  
All you gotta do is try for me

You think it's good when it's bad 'cause you can't do the math  
You're always high when I crash when all you gotta do is try for me  
Hurt that's been had, is it worth coming back?  
To fill the seams and the cracks? All you gotta do is try for me

Oh, the pieces that we broke  
Weigh heavy on my soul, on my soul  
Oh, the pieces that we broke  
Can't seem to let them go, let them go

All you gotta do is try for me  
All you gotta do is try for me, yeah
