Wanted A Name

Frenship

Guess I was born this way
A young gun with something to say
Show me the goal to take
I wanted a name

Tell me this is the way
I'll break any neck to play
I'll fake any smile and sign it away
I wanted a name

And I feel like the moment
And pretend that I own it
And I know that I chose this
And I want it

This road isn't homely
I got ten thousands onlys
But it only takes one of them to hold me

Could you love me like you used to?
Could you love me like you used to?
Could you love me like you used to?
Could you love me like you used to?

Cuz I still needed you
I needed you
Cuz I still need you

Tell me this is the way
And now that I learn it's a game
I'll take all the blame and keep all the shame
And tell you it's fame

Now that I'm on my way
And nothing is ever the same
I've never been good with the change
I wanted a name

And I feel like the moment
And pretend that I own it
And I know that I chose this
And I want it

This road isn't homely
I got ten thousands onlys
But it only takes one of them to hold me

Could you love me like you used to?
Could you love me like you used to?
Could you love me like you used to?

Cuz I still needed you
I needed you
I needed you
I needed you
Cuz I still need you
