

# Wide Open

Frenship

Turn to stone  
All the feelings let them go  
Walk alone  
If you need but not for long

Just go do what you do  
And just take what you can use  
I'll be waiting here in light of the dark  
And even if it makes you bruise  
It won't stay a part of you  
Oh the first step is the hardest part

So step into the wide, wide, wide, wide open  
Straight into the wide, wide, wide, wide open  
Yeah, cause if you never leave you'll never know the distance  
Between you and the wide, wide, wide, wide open  
Yeah

Wide open

Love would let you leave  
So I'll give you space that you need  
To turn the page  
Cut the cord and walk away

So do what you do  
Even if it makes you bruise  
Well the first step is the hardest part

So step into the wide, wide, wide, wide open  
Straight into the wide, wide, wide, wide open  
Yeah. cause if you never leave you'll never know the distance  
Between you and the wide, wide, wide, wide open  
Yeah  
Wide open

Wide open

Pick up where we left off  
Don't you worry lady  
Take a little ride up past the sunset baby  
Pick up where we left off  
Don't you worry lady  
Take a little ride up past the sunset  
Don't you worry

So step into the wide, wide, wide, wide open  
Straight into the wide, wide, wide, wide open  
Yeah, cause if you never leave you'll never know the distance  
Between you and the wide, wide, wide, wide open

Wide open
