

# Bite Me

Freya Ridings

Saw you at the supermarket yesterday  
Buying pastries you once bought for me  
For the girl who must have captured your heart  
7 months since I have seen your face  
Hiding behind the apples and the grapes  
I'm the one who left you there in the dark

'Cause I thought I'd be fine without you  
But I can't move on if I try to

'Cause I guess I could say  
You're the one who's getting away  
Out of all the games that I play  
This one's coming back to bite me  
Because I gave you up  
Now you're the one who's falling in love  
'Cause I never gave you enough  
And it's coming back to bite me

I know the route you're running through the park  
Sitting on the swings till after dark  
What would it feel like to hold you again  
Does she give you all that you deserve  
If I had a chance to put you first  
Would you take me back or say we're just friends

'Cause I thought I'd be fine without you  
But I can't move on if I try to

'Cause I guess I could say  
You're the one who's getting away  
Out of all the games that I play  
This one's coming back to bite me  
Because I gave you up  
Now you're the one who's falling in love  
'Cause I never gave you enough  
And it's coming back to bite me

And baby it hurts (hurts, hurts, hurts)  
Love is the worst (hurts, hurts, hurts)  
Baby it hurts, hurts, hurts  
It hurts

And the dawn is breaking on me now  
And I still pray somehow that I'll see you someday  
And I will hear you say "darling you're not getting away  
Even after all of the pain, I'm still coming back to find you"

Because I gave you up  
Now you're the one who's falling in love  
'Cause I never gave you enough  
And it's coming back to bite me

And baby it hurts (hurts, hurts, hurts)  
Love is the worst (hurts, hurts, hurts)  
Baby it hurts, hurts, hurts  
It hurts

Baby it hurts (hurts, hurts, hurts)  
Love is the worst (hurts, hurts, hurts)  
Baby it hurts, hurts, hurts  
It hurts
