

# Blackout

Freya Ridings

If you'd have just let me in  
Who knows what could have been  
They tell me to forget but I don't want to  
Your face is all I seem too see

How can blackout you?

Don't wanna hear my friends say  
"Girl, you're better off anyway"  
Cause I know that's not true, I want you  
I wanted you to be the one who stayed

How can I blackout you, you, you?  
How can I blackout you?  
How can I blackout you?

Pins and needles in my lips  
No anaesthetic could make me numb to you

How can I blackout you, you, you?  
How can I blackout you, you, you?  
How can I blackout you, ooh, you?  
How can I blackout you, ooh, you?

It's always been you
